Safety Built-In

Commuter safety is a priority at the Wickford Junction Train Station and Garage. Indoor and outdoor waiting areas; glass back elevators; security cameras throughout and “Pull for Emergency” stations at all stairs and elevators give commuters the security to park and board the train without worry. The garage is also well-lit with environmentally friendly LED lighting and motion sensors to ensure safety during all hours of operation.

Commuting Made Easy

The Wickford Junction Train Station and Garage was designed and built through a Public/Private Partnership with the Rhode Island Department of Transportation (RIDOT) and the developers of Wickford Junction. Centrally located on Route 102 in North Kingstown, RI and conveniently located in South County, the Station provides easy on-and-off access to Route 4. On top of a convenient location, the Station boasts many features and amenities to make commuting via MBTA train to and from Providence and Boston affordable, enjoyable and hassle-free. **Features include:**

- ➔ Four-story parking garage managed by ProPark America that accommodates 1,100 cars
- ➔ 848-foot platform with seating and covered areas
- ➔ Automated cashless ticket machines to make garage entry and exit convenient
- ➔ Garage, station, platform and bathrooms are Americans with Disabilities Act (ADA) compliant
- ➔ Heated bathrooms and indoor waiting area with seating
- ➔ In-station coffee and snack shop
- ➔ Charging stations for electric and hybrid vehicles
- ➔ Access to public transportation by the Rhode Island Public Transit Authority (RIPTA)
- ➔ Covered bicycle racks

Architecture with a History

The architectural inspiration for today's Wickford Junction Station is the old Lafayette Mill down the road on Route 102 (Ten Rod Road) in North Kingstown. The Lafayette Mill represents North Kingstown's vibrant textile industry of years past and is an important part of North Kingstown's history. The goal of the design and construction of the Station was to pay homage to the red brick design of the Mill. The design complements the building and natural surroundings of the area while creating a structure that is not only aesthetically attractive, but environmentally friendly.

Affordable Daily Rates

With just 35 minutes travel time to Providence and less than two hours to Boston's South Station, commuting from Wickford Junction saves Rhode Island commuters time and money and allows passengers to relax or be productive during their commute. Knowing that, many employers reimburse for commuter expenses (check with your employer). This makes embracing commuter rail travel a no-brainer. **Some key points to know:**

- ➔ \$4.00 a day parking
- ➔ One way fare to or from Providence: \$2.50 (\$3.25 starting July 1, 2012)
- ➔ One way fare to or from Boston's South Station: \$9.00 (\$11.00 starting July 1, 2012)
- ➔ Tickets are half-price for seniors as well as those with physical disabilities
- ➔ Children age 11 and under are free when accompanied by a paying adult
- ➔ Monthly commuter rail passes and parking rates available
